When is another case “related”?

Another case may be “related” and should be included on this form if any of the following apply:

- it involves any of the same parties, children or issues and it is pending at the time the petitioner files any of the above cases; or
- it affects the court’s jurisdiction to proceed; or
- an order was entered in that case that may conflict with an order on the same issues in the new case; or
- an order in the new case may conflict with an order in the earlier litigation.

Please Note: Cases for a Judicial Waiver of Parental Notice of Termination of Pregnancy are not related cases and should not be included on any Notice of Related Cases Form.

If you believe you have more than one related case, please complete a separate form for each case. If you are not sure if another case is related, you should complete the form and let the court decide whether or not coordination of the cases is warranted.

Why is it important to complete this form?

Florida Rule of Judicial Administration 2.085(d) requires this form to be filed with the court if a related case is “known or reasonably ascertainable.” The filing of this form will ensure that the court is aware of other related cases. This information will help prevent the court from issuing an order that conflicts with another court order that may have been issued, as well as coordinate hearings, where possible, so that less trips to the courthouse are necessary.

What should I do after completing this form?

After completing this form, the petitioner must file this form with the court and then serve a copy on the following:
